Joining the Conversation
**Satellite Town Meeting**

With the success of The Bedford Researcher, Mike Palmquist has earned a devoted following of teachers and students who appreciate his accessible approach to the process of inquiry-based writing. Now he brings his proven methodology and friendly tone to Joining the Conversation. While students may know how to send text messages, search for images, and read the news online all at the same time, they don’t necessarily know how to juggle the skills they need to engage readers and compose a meaningful contribution to an academic conversation. Meeting students where they are — working online and collaboratively — Joining the Conversation embraces the new realities of writing, without sacrificing the support that students need as they write for college and beyond.

“A searing, ballistic plunge into the mysteries of identity and mortality” from the author of the time travel sci-fi thriller Side Life (Katherine Dunn, author of Geek Love). What does it mean to be human, and what happens when humanity takes the next step in its evolution? When Join arrived, it was hailed as a miracle: a technology that allowed humans to join consciousnesses. To experience perfect, constant companionship through multiple bodies. To never die. But Chance and Leap—two joins of five and four respectively—discover a terrifying malfunction in the technology. Chance and Leap must journey into the climate change–ruined heart of North America and the communities of never-joined “ferals” in search of the only ones who can dismantle the technology: the ones who created it. “[Toutonghi] combines smart, imaginative extrapolation about technology and a deep curiosity about civilization and the human condition.” —NPR.org “Join is a conceptual powerhouse, tapping into the core of our contemporary debates about technology.” —Tor.com “A heady sci-fi thriller about a world-altering technology—and its hidden costs.” —Kirkus Reviews “Challenging, surprising, shocking, and enlightening. Steve Toutonghi’s Join stands alongside Ancillary Justice as a novel that forces us to ask impossible questions about identity and immortality. An exciting addition to 21st century science fiction.” —Robert Repino, author of D’Arc and Mort(e)

In this New York Times bestseller, Ijeoma Oluo offers a hard-hitting but user-friendly examination of race in America. Widespread reporting on aspects of white supremacy -- from police brutality to the mass incarceration of Black Americans -- has put a media spotlight on racism in our society. Still, it is a difficult subject to talk about. How do you tell your roommate her jokes are racist? Why did your sister-in-law take umbrage when you asked to touch her hair -- and how do you make it right? How do you explain white privilege to your white, privileged friend? In So You Want to Talk About Race, Ijeoma Oluo guides readers
of all races through subjects ranging from intersectionality and affirmative action to "model minorities" in an attempt to make the seemingly impossible possible: honest conversations about race and racism, and how they infect almost every aspect of American life. "Oluo gives us -- both white people and people of color -- that language to engage in clear, constructive, and confident dialogue with each other about how to deal with racial prejudices and biases." -- National Book Review

"Generous and empathetic, yet usefully blunt . . . it's for anyone who wants to be smarter and more empathetic about matters of race and engage in more productive anti-racist action." -- Salon (Required Reading)

This anthology invites readers to experience the pleasures of reading by offering them a selection of readings that are accessible and diverse in style, voice, and content. Furthermore, the instructional apparatus that accompanies each reading helps readers develop vocabulary and critical reading skills. Thus readers are invited into the conversation about events, lives, and ideas that we call reading, and given the tools to help them do so in a manner that makes reading satisfying, rewarding, and essential. A multicultural collection of authors explore many facets of life through the written word. The readings are a sampling of contemporary literature from the late twentieth century as well as a few pieces written in earlier times. They are divided into seven chapters, each focusing on a different kind or purpose of reading. The majority of the readings are works of prose, but each chapter also
includes a sampling of poetry. For those who are planning to begin or return to college; for GED preparation classes and workplace literacy programs; and for ESOL classes for students capable of reading and speaking basic English but in need of developing more sophisticated language skills, both spoken and written, as well as a deeper understanding of American history and culture.

Standoff is award-winning journalist Jamie Thompson's gripping account of a deadly night in Dallas, told through the eyes of those at the center of the events, who offer a nuanced look at race and policing in America. On the evening of July 7, 2016, protesters gathered in cities across the nation after police shot two black men, Philando Castile and Alton Sterling. As officers patrolled a march in Dallas, a young man stepped out of an SUV wearing a bulletproof vest and carrying a high-powered rifle. He killed five officers and wounded eleven others. It fell to a small group of cops to corner the shooter inside a community college, where a fierce gun battle was followed by a stalemate. Crisis negotiator Larry Gordon, a 21-year department veteran, spent hours bonding with the gunman—over childhood ghosts and death and shared experiences of racial injustice in America—while his colleagues devised an unprecedented plan to bring the night to its dramatic end. Thompson’s minute-by-minute account includes intimate portrayals of the negotiator, a surgeon who operated on the fallen officers, a mother of four shot down in the street, and the SWAT officers tasked with stopping the gunman. This is a deeply affecting story of real people navigating a terrifying crisis and a city’s attempts to heal its divisions.
